## About Me

Creative and result-oriented Senior UI/UX Designer with over 7 years of experience in website and interface design and 12 years in the design industry overall.

My strengths: visual style, redesigns, UX strategy, and full-cycle website creation on WIX. I lead projects from concept to launch, combining user-centric thinking with expressive, eye-catching design.

Industries I've worked with:

Legal Tech, gambling and betting, e-commerce, crypto and blockchain, EdTech and online education, SaaS, fintech, marketing agencies, digital products, healthcare and wellness, legal services, consulting, personal branding, coaching, tourism, NFT projects, online stores, blogs, portfolios, art and creative industries.

Winner of international and freelance design competitions. I'm passionate about unique aesthetics, intuitive UX, and constant professional growth.

## Values & Lifestyle

I truly love design — and the people I design for. I'm driven not by trends, but by meaning. My goal is to find the balance between aesthetics and usability, creativity and function.

I don't just make things look good — I research, plan, and deliver results.

I embrace complex challenges, think systematically, learn fast, take initiative, and bring projects to the finish line.

Beyond UI/UX, I constantly explore adjacent fields — from marketing and analytics to AI tools. I enjoy sharing my insights and feel deeply fulfilled when my ideas inspire or help others.

### Outside of work, you'll find me:

- Meditating or walking by the sea with my dog
- Watching sunsets (and occasionally sunrises 🌅) — a ritual to reset
- Drawing, sculpting with clay, creating jewelry
- Playing board games, swimming, biking, doing fitness
- Recharging in saunas or with Thai massage

I believe that great design starts with inner clarity — and I strive to live in harmony with myself, so I can create harmony for others.
